Art Unit: 1724

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. Claim 22 recites that the adjustment means adjusts the water quantity “-0.0077 times the temperature sensed.” However, since claim 22 depend from claim 20, which parent claim now recites that the adjustment means adjusts the water quantity “-0.0029 times the temperature sensed” (see the last two lines), this dependent claim is indefinite as to the water quantity adjustment rate.

Claims 13, 15-18, 20 and 23 are allowed.

Applicant submitted a preliminary amendment to the specification (i.e. at page 1, line 10) to include a specific reference to two earlier filed applications. Applicant should now update the status of these two applications.

Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
